PROFESSIONAL SUMMARY

Senior technical consultant and tech lead with 8 years designing mission-critical systems for banks. Tech lead at ITSS Global since March 2026, accountable end to end for regulatory reporting and enterprise document management deliveries in North and Central Africa: functional framing with business stakeholders, data architecture from core banking extraction through a Bronze / Silver / Gold lakehouse to report restitution, BPM-driven document workflows, and Nostro account reconciliation. Core stack: Java 21, Spring Boot, Oracle SQL and PL/SQL, PostgreSQL, Temenos T24 / Transact, React.

SKILLS

Banking and regulatory: Temenos T24 / Transact, T24 enquiries, regulatory reporting, prudential reporting, ETL and data lakehouse (Bronze / Silver / Gold), data dictionaries and lineage, electronic document management (ECM / GED), BPM workflow design, Jasper / JRXML document production, Nostro reconciliation

Programming: Java, Python, JavaScript, TypeScript, PL/SQL, SQL

Backend and web: Spring Boot, FastAPI, React, Ant Design, REST APIs, JWT

Databases: Oracle SQL, PostgreSQL, MySQL, SQL Server, Redis, JPA/Hibernate; packages, jobs, materialized views, partitioning, indexing, execution-plan tuning

Tools: Git, Docker, Agile Scrum, Vite

Languages: Arabic (native), French (fluent), English (fluent)

PROFESSIONAL EXPERIENCE

Senior Technical Consultant | Tech Lead

ITSS Global | Client missions: Algeria and Congo-Brazzaville | March 2026 - Present

Tech lead on 4 concurrent deliveries: BNH regulatory reporting and GED, Nostro reconciliation (completed), CEMAC document production, and CEMAC T24 regulatory reporting.

- Unblocked central-bank regulatory production and electronic document management for Banque Nationale de l'Habitat (BNH, Algeria) across 6 domains by leading cadrage, T24-to-lakehouse (Bronze / Silver / Gold) architecture, report UI restitution, dictionaries, and BPM-based scan / index / approve flows.
- Stood up trade-dossier approval circuits for a GED pilot by running BPM workshops (process matrices, flux catalogue, prerequisite tracking) so branches can route dossiers without ad-hoc email.
- Closed Nostro (correspondent-account) reconciliation for BNH treasury by delivering a React / Spring Boot / PostgreSQL matching platform against T24; project completed and not ongoing.

- Launched customer document printing for a CEMAC commercial bank (Congo-Brazzaville) by delivering 11 JRXML templates and Document Output configuration (RIB, statements, cash receipts, and related types).
- Reached regulatory reporting go-live on Temenos Transact R25 for the same CEMAC client by configuring T24 enquiries covering FX, cash position, and central-bank operations reporting.

Java and Oracle PL/SQL Developer

BFI Groupe | Tunisia | July 2023 - March 2026

- Delivered BIAT accounting centralization by integrating core-banking and satellite flows with integrity controls and performance tuning.
- Enabled UEMOA prudential reporting by implementing collection, normalization, controls, and statement transmission against regional requirements.
- Hardened Oracle for critical bank transactions by tuning packages, jobs, materialized views, partitioning, indexing, and execution plans.

Software Development Engineer

SEGULA Technologies for Groupe Stellantis | France | October 2018 - June 2023

- Delivered calibration and benchmarking software for Stellantis automatic-transmission programs by leading requirements analysis and building internal tooling with automated .doc reports.
- Migrated an engineering data platform to PostgreSQL without breaking existing Excel / Access clients by redesigning XML import / export and SQL synchronization.

EDUCATION

National Engineering Degree

École Nationale Supérieure d'Ingénieurs de Tunis (ENSIT) | Tunis, Tunisia | September 2015 - June 2018

Preparatory Classes for Engineering Studies (MP track)

Institut préparatoire aux études d'ingénieurs d'El Manar (IPEIEM) | Tunis, Tunisia | 2013 - 2015

Tunisian Baccalaureate - Mathematics specialty

2013

TRAINING AND CERTIFICATIONS

Massinissa Framework Training - BFI

Four-month program on Massinissa framework architecture (Java, MVC)

Accelerated VBA Training - Stellantis

Technical Center, Carrières-sous-Poissy | August 2019
