PROFESSIONAL SUMMARY

Senior software engineer with 8 years in full-stack development, backend development, and software architecture, building systems in Java / Spring Boot, React, and Python / FastAPI. Experience delivering APIs, web applications, and data-backed services for finance and industrial software, with tech-lead ownership of multi-delivery work since March 2026. Focus on performance, data quality, security (RBAC, encryption), and shipping maintainable product features end to end.

SKILLS

Languages: Java 21, Java, Python, JavaScript, TypeScript, PL/SQL, SQL

Backend: Spring Boot, FastAPI, Express (Node.js), RESTful APIs, JWT authentication, microservices, Stripe, SQLAlchemy, Alembic

Frontend: React, TypeScript, Ant Design, Material UI, Redux Toolkit, Vite, HTML, Bootstrap

Databases: PostgreSQL, Oracle SQL, MySQL, MongoDB, Redis, JPA/Hibernate

Data / ETL: ETL pipelines, Bronze / Silver / Gold lakehouse patterns, system architecture, software architecture, data engineering, enterprise integration, regulatory compliance, data dictionaries

AI (applied): PyTorch, TensorFlow, Hugging Face Transformers, LoRA, GPU inference, computer vision APIs

Tools: Git, Docker, Docker Compose, GitLab CI/CD, Nginx, OVHcloud, Agile Scrum, WebSocket, WebRTC

Languages (spoken): Arabic (native), French (fluent), English (fluent)

PROFESSIONAL EXPERIENCE

Senior Technical Consultant / Tech Lead

ITSS Global | Client missions: Algeria and Congo-Brazzaville | March 2026 - Present

- Shipped 2 production platforms for Banque Nationale de l'Habitat (BNH, Algeria), a closed Nostro (correspondent-account) matching app and electronic document routing for trade dossiers, by leading full-stack delivery in Java 21, Spring Boot, React, and PostgreSQL with Business Process Management (BPM) approval circuits.
- Enabled regulatory reporting across 6 bank domains with cell-to-source traceability by designing T24 extraction through a Bronze / Silver / Gold lakehouse system architecture into a report UI, plus master and domain data dictionaries.
- Brought customer document printing and regulatory compliance reporting to go-live for a CEMAC commercial bank (Congo-Brazzaville) by delivering 11 JRXML / Document Output templates and T24

enquiry configurations on Temenos Transact.

- Ran 4 concurrent client workstreams as tech lead by owning stakeholder framing, technical prioritization, and configuration handoffs across Algeria and Congo-Brazzaville missions.

Java and Oracle PL/SQL Developer

BFI Groupe | Tunisia | July 2023 - March 2026

- Delivered an accounting centralizer for BIAT covering core-banking and satellite flows by orchestrating enterprise integration in Java / Oracle with integrity controls and latency / volume tuning.
- Built a dual-country regulatory filing subsystem for the same banking group in Morocco and Algeria using Java and Oracle PL/SQL, generating XBRL and XML taxonomies for Bank Al-Maghrib and Banque d'Algérie (COREP-style prudential reporting and FINREP-style financial reporting) with parameterized APIs for enterprise integration with those gateways.
- Delivered a prudential reporting solution for UEMOA banks by implementing collection, normalization, controls, and statement generation against regional regulatory requirements.
- Improved reliability of high-volume transactional databases by tuning Oracle packages, jobs, materialized views, partitioning, indexing, and execution plans; documented APIs and architecture.

Software Development Engineer

SEGULA Technologies for Groupe Stellantis | France | October 2018 - June 2023

- Delivered torque-converter calibration and automated benchmarking tooling in Excel VBA for Stellantis transmission programs over a 5-year engagement by specifying requirements and building engineering software with .doc report generation.
- Unified engineering data navigation and updates by building an Excel / Access platform with XML import / export and SQL sync, then migrating persistence to PostgreSQL without breaking existing tools.

EDUCATION

National Engineering Degree - École Nationale Supérieure d'Ingénieurs de Tunis (ENSIT), Tunis, Tunisia - Graduated June 2018 (September 2015 to June 2018)

Preparatory Classes for Engineering Studies (MP track) - Institut préparatoire aux études d'ingénieurs d'El Manar (IPEIEM), Tunis, Tunisia - 2013 to 2015

Tunisian Baccalaureate, Mathematics specialty - Graduated 2013

PROJECTS

Independent digital health platform

Independent startup product (not an employer) | 2024 to present | React, TypeScript, FastAPI, PostgreSQL, Docker Compose, GitLab CI/CD, Stripe, Jitsi, LiveKit

- Shipped a production multi-tenant health platform: React TypeScript SPA, FastAPI on PostgreSQL, clinical questionnaire trees, partner marketplace with Stripe, and professional dashboards.
- Migrated production to OVHcloud (multi-VPS Docker Compose, managed PostgreSQL, Nginx, Let's Encrypt) and set up GitLab CI/CD with SSH deploy hooks for frontend, backend, and telehealth branches.
- Integrated self-hosted Jitsi Meet and a LiveKit WebRTC sidecar (JWT room tokens, FastAPI, Nginx path isolation).

DermaDetectAI

React, TypeScript, Python, FastAPI, PostgreSQL, PyTorch, TensorFlow, Hugging Face, Material-UI, Docker | <https://github.com/dhiaBenHmida/DermaDetectAI>

- Full-stack AI skin-condition diagnostic app: ViT feature extraction, custom MLP classifier, MedGemma conversational diagnosis, RBAC, GPU inference, PWA dashboards.

CADSHIP - 3D Model Marketplace

React, Three.js, React Three Fiber, Node.js, Express, MongoDB, OpenCASCADE.js, WASM, JWT, Redis | <https://github.com/dhiaBenHmida/CADSHIP>

- Full-stack marketplace for CAD models with STEP / STL / OBJ visualization, real-time collaboration (WebRTC, Socket.io), e-commerce, and Redis caching.

VisionForge AI

React, TypeScript, Spring Boot, Python, FastAPI, PyTorch, Docker | <https://github.com/dhiaBenHmida/VisionForge-AI>

- Computer-vision training and deployment platform with unified inference adapters, model registry, versioning, rollback, and A/B testing across Spring Boot and FastAPI services.

CERTIFICATIONS

Accelerated VBA Training - Stellantis

Technical Center, Carrières-sous-Poissy | August 2019

Massinissa Framework Training - BFI

Four-month Java / MVC framework program
